ARD Case Study

Annual ARD + REED with a Placement Change

A complete IEP written from evaluation data: 7th grader, Specific Learning Disability with dyslexia and dysgraphia

Prepared by Yvette Saucedo, M.Ed. | Special Education Case Manager

Fictional sample. The student, family, school, evaluation scores, and signatures in this document are invented for training and portfolio purposes. The school name, logo, and signatures were replaced, and the contact number is a placeholder.

The scenario

Student	Edwin (fictional), 7th grade
Meeting	Annual ARD and Review of Existing Evaluation Data (REED), held 10/15/2026
Evaluations reviewed	Full and Individual Evaluation dated 10/10/2026; Occupational Therapy evaluation dated 10/08/2026
Eligibility	Specific Learning Disability in basic reading, reading fluency, reading comprehension, written expression, and math problem solving, including dyslexia and dysgraphia
What the data showed	Average reasoning and listening skills, but kindergarten to 1st-grade instructional levels in reading, writing, and math. He read 24 words correct per minute on a 1st-grade passage and scored 80% on comprehension when text was read aloud versus 30% on his own. Inclusion support in ELAR and Math had not closed the gaps.
Decision	Move from inclusion support to small-group resource ELAR and Math, add 50 minutes of daily dyslexia instruction and quarterly OT consult, and keep inclusion support in Science and Social Studies

How I write an ARD

1. Present levels built from data	Each subject follows the same pattern: assessment data, strengths, needs, then teacher input, with numbers a family can follow ("8 out of 10" rather than a percentile alone).
2. Goals tied to the data and the TEKS	Every goal starts with "Within 36 instructional weeks," names the conditions and supports, sets a measurable target, and is aligned to a 7th-grade TEKS. The baseline comes straight from the present levels.
3. Accommodations that line up	Classroom, district, and STAAR supports match. A STAAR designated support is only listed when the student already uses it routinely in class.
4. A placement decision the data can defend	The LRE section explains why removal is needed, what he keeps with nondisabled peers, and the benefits and harmful effects of the setting.
5. Prior Written Notice from my template library	Each decision is written as "The ARDC proposed..." and lined up with its reason, the options considered, and why they were rejected, so the notice stays consistent from start to finish.
6. Dyslexia Supplement with program fit	Names the program, explains how it meets the Dyslexia Handbook's delivery methods, and states what will be supplemented for this student.
7. Deliberations in plain language	Organized by IEP section and written so parents can read them, including their own concerns in their own words.

Compliance checkpoints in this file

Notice	Notice of ARD sent 10/01/2026, at least 5 school days before the meeting; contact attempts documented
Timeline	ARD held within 30 calendar days of the evaluation report; next re-evaluation due 10/09/2029
REED	Existing data reviewed and documented; no additional testing needed
State requirements	Accelerated instruction plan for the missed STAAR (HB 1416) and a completed Dyslexia Supplement
Prior Written Notice	Covers every required element; parents waived the 5-school-day wait

Where to find each section

Section	IEP pages
ARD cover and eligibility	1–3
Present levels (PLAAFP)	4–7
Annual goals	8–12
Accommodations and supports	13–16
District and state assessment	17–20
Services, placement, and LRE	21–25
Deliberation notes	26–28
Prior Written Notice	29–31
Dyslexia Supplement	32–33
Notice of ARD and procedural safeguards	34–37

Evaluation and Eligibility Data

Student Name: *Edwin (Fictional)* **Grade:** *7th* **Date:** *10/15/2026* **DOB:** *11/13/2013*

Determination of present levels of educational performance and needs

Full and Individual Evaluation: Date: *10/10/2026* REED: Date: *10/15/2026*

☑ Yes ☐ No The ARD Committee has determined that the child has a disability.

		Primary
Specific Learning Disability (8)	*10/15/2026*	☑

SLD Areas:

☑ Basic Reading Skills	☑ Reading Fluency Skills	☑ Reading Comprehension
☐ Math Calculation	☑ Math Problem-Solving	☑ Written Expression
☐ Oral Expression	☐ Listening Comprehension	☑ Dyslexia
☑ Dysgraphia	☐ Dyscalculia	

☑ Yes ☐ No By reason of the disability or disabilities selected above, the child requires special education and related services.

Analysis of Determinant Factors

The ARD Committee has reviewed the factors below in relation to the disability. Are the factors listed below the reasons or cause of the disability?

☐ Yes ☑ No Lack of appropriate instruction in reading, including in the essential components of reading instruction as defined in the Elementary and Secondary Education Act which means explicit and systematic instruction in phonemic awareness, phonics, vocabulary development, reading fluency, including oral reading skills; and reading comprehension strategies.

☐ Yes ☑ No Lack of appropriate instruction in math; or

☐ Yes ☑ No English learner language skills.

Related Services Reports:

Occupational Therapy Evaluation dated 10/08/2026.

☐ Yes ☑ No Student qualifies with multiple disabilities eligibility

☐ Yes ☑ No Student qualifies as medically fragile

☐ Yes ☑ No Student qualifies as a student with autism

☐ Yes ☑ No Student qualifies as a student who is Deaf or Hard of Hearing

☐ Yes ☑ No Student qualifies as a student with a Visual Impairment.

☑ Yes ☐ No Student qualifies as a student with dyslexia or a related disorder

Information from parent/student: What are the parent's concerns for enhancing the education of his/her child, or for the adult student, what are the student's concerns for his/her education?

Edwin's parents expressed concerns about his reading and writing difficulties, noting that he struggles to read signs, restaurant menus, and participate in family board games. They shared that he becomes embarrassed and shuts down when asked to read aloud and has cried in class. Teachers have also reported difficulty encouraging him to share answers. Additionally, his parents noted that he avoids writing and drawing activities.

Evaluation and Eligibility Data

☐ Yes ☑ No Additional evaluation data is requested. If "Yes" complete **Notice of Proposal to Evaluate Including Determination of Needed Evaluation Data, Consent for Full and Individual Evaluation, and Request for Additional Assessment (if appropriate).**

Present Levels Of Academic Achievement and Functional Performance

Student Name: *Edwin (Fictional)* **Grade:** *7th* **Date:** *10/15/2026* **DOB:** *11/13/2013*

When completing this page, include all areas from the following list that are impacted by the student's disability: **academic performance, social/emotional status, independent functioning, vocational, motor skills, and speech and language/communication.** This may include strengths/weaknesses identified in the most recent evaluation.

HEALTH INFORMATION/CONCERNS:

Hearing: - Pass
Vision: - Pass

☐ Yes ☑ No Student requires a Medical Service Plan.

STUDENT'S PRESENT LEVEL OF ACADEMIC ACHIEVEMENT (Include strengths and areas needing improvement)

Subject: *Reading*

Data
Assessment: District Reading Diagnostic – Fall 2026
Assessment Date: September 15, 2026
Grade-Level Placement: Kindergarten–1st Grade
Overall Reading Score: 412 (Fictional Scale Score)
National Percentile: 2nd (Simulated)

Strengths
- Verbal comprehension (94), fluid reasoning (96), and listening comprehension (92) are in the average range.
- When text is read aloud, Edwin demonstrates understanding, participates in discussions, and uses age-appropriate vocabulary.
- According to his ELAR teacher, Edwin answered 8 out of 10 comprehension questions correctly (80%) when a grade-level passage was read aloud.
- Teacher observations indicate that Edwin can verbally identify the main idea and provide supporting details when information is presented orally.
- Edwin demonstrates persistence during small-group instruction and responds positively to encouragement and individualized support.

Needs
- Basic Reading Skills (63), Reading Fluency (60), and Reading Comprehension (65) are well below average.
- On a first-grade passage, Edwin read 24 words correct per minute (WCPM) with 72% accuracy.
- District diagnostic results indicate instructional performance between kindergarten and first grade.
- Decoding difficulties significantly impact Edwin's ability to comprehend independently read text.

Teacher Input
- According to his Intervention teacher, Edwin correctly decoded 7 out of 20 unfamiliar single-syllable words (35%) during a classroom phonics assessment.
- In his ELAR class, Edwin averaged 30% accuracy, compared to 80% accuracy when passages and questions were read aloud on three independent reading comprehension assignments,
- Teacher observations indicate that Edwin frequently guesses unfamiliar words based on their beginning letters, skips words, and requires prompting to apply decoding strategies.
- Edwin demonstrates reluctance to read aloud and may become withdrawn when asked to read in front of peers, limiting his classroom participation.

Subject: *Writing*

Data

Present Levels Of Academic Achievement and Functional Performance

Assessment: District Writing Diagnostic – Fall 2026
Assessment Date: September 16, 2026
Written Expression Standard Score: 62 (Well Below Average)
Oral Expression Standard Score: 96 (Average)
Instructional Writing Level: Kindergarten–1st Grade (Simulated)

Strengths
- Oral Expression (96) falls within the average range. Edwin can verbally explain his ideas and communicate using age-appropriate vocabulary.
- According to his ELAR teacher, Edwin verbally answered 8 out of 10 questions correctly (80%) following a classroom writing discussion.
- When provided with sentence starters and verbal prompting, Edwin can organize his thoughts and verbally construct complete sentences.
- Teacher observations indicate that Edwin participates more confidently when allowed to respond orally rather than in writing.

Needs
- Written Expression (62) falls well below average, indicating significant difficulties with spelling, sentence construction, and written organization.
- On a classroom spelling assessment, Edwin correctly spelled 4 out of 20 first-grade high-frequency words (20%).
- During a 10-minute independent writing task, Edwin produced 2 incomplete sentences containing a total of 9 words, compared to a classroom average of 65 words.
- On a teacher-created sentence construction assessment, Edwin independently wrote 2 out of 10 complete sentences (20%).

Teacher Input
- According to his ELAR teacher, only 50% of the words in Edwin's handwritten writing sample were legible without clarification.
- Teacher observations indicate that Edwin requires approximately 25–30 minutes to complete writing assignments that typically take peers 10–15 minutes.
- Edwin frequently demonstrates difficulty with letter formation, spacing, capitalization, and punctuation. He often avoids writing tasks and requires frequent encouragement to begin and complete assignments.

Subject: *Math*

Data
Assessment: District Math Diagnostic – Fall 2026
Assessment Date: September 17, 2026
Math Calculation Standard Score: 82 (Low Average)
Math Problem Solving Standard Score: 67 (Well Below Average)
Instructional Math Level: Kindergarten–1st Grade (Simulated)

Strengths
- Math Calculation (82) falls within the low-average range. Edwin demonstrates emerging understanding of basic addition and subtraction, particularly when using manipulatives and visual supports.
- According to his math teacher, Edwin correctly solved 8 out of 10 single-digit addition problems (80%) when provided with counters or a number line.
- On a teacher-created subtraction assessment, Edwin solved 7 out of 10 problems (70%) when using manipulatives.
- Teacher observations indicate that Edwin can verbally explain his mathematical thinking when problems are presented orally and modeled.

Present Levels Of Academic Achievement and Functional Performance

- Edwin demonstrates persistence during small-group instruction and benefits from guided practice, visual models, and repeated examples.

Needs
- Math Problem Solving (67) falls well below average, indicating significant difficulty applying mathematical concepts to word problems.
- District diagnostic results indicate that Edwin is performing at approximately a kindergarten to first-grade instructional level in mathematics.
- On a teacher-created assessment of 10 single-step word problems, Edwin independently solved 3 correctly (30%).
- When the same problems were read aloud and visual models were provided, Edwin correctly solved 7 out of 10 problems (70%).
- On a classroom assessment involving five two-step word problems, Edwin independently solved 1 out of 5 correctly (20%).

Teacher Input
- According to his math teacher, Edwin frequently struggles to identify the appropriate operation when solving word problems and requires prompting to determine what the question is asking.
- Teacher observations indicate that Edwin has difficulty retaining information across multiple steps, organizing his work, and remembering previously explained directions.
- Edwin requires frequent redirection, chunked instructions, and visual supports to complete multi-step mathematical tasks.

STUDENT'S PRESENT LEVELS OF FUNCTIONAL PERFORMANCE (Include strengths and areas needing improvement)

Functional Area: *Fine Motor / Handwriting*

Strengths:
Edwin can form most letters and is willing to use tools like a pencil grip and keyboard.

Needs:
Visual-motor integration (78) is below average, and fine motor coordination (82) is low average.
Handwriting legibility is 60% on copied work.
Letter size and spacing are inconsistent.
Copying speed is well below grade level.

Functional Area: *Cognitive Processing / Work Habits*

Strengths:
Visual-spatial reasoning is average (101).

Needs:
Working Memory (78) and Processing Speed (76) are below average. He has trouble holding multi-step directions in mind and finishing work in the time given.

Impact and Need Statement

Edwin has a Specific Learning Disability in Basic Reading Skills, Reading Fluency, Reading Comprehension, Written Expression, and Math Problem Solving, including dyslexia and dysgraphia. His disability affects his ability to read grade-level text accurately and fluently, express his ideas in writing, and solve multi-step math problems. Edwin understands what he hears, but reading words on the page and getting his thoughts onto paper are very hard for him

Present Levels Of Academic Achievement and Functional Performance

and take a lot of time. Weak fine motor and visual-motor skills also make his handwriting slow and difficult to read. He needs specially designed instruction in reading, writing, and math, direct dyslexia instruction, occupational therapy consult support, and accommodations so he can access 7th-grade content.

Goals and Objectives/Benchmarks

Student Name: *Edwin (Fictional)* **Grade:** *7th* **Date:** *10/15/2026* **DOB:** *11/13/2013*

Goal #: *1* **Goal Type:** *Dyslexia, Basic Reading Skills (Decoding)*

Goal Area: ☑ Academic

Method of Parent Notification: ☑ Progress Report

Schedule for Reporting Progress: *Concurrent with Report Cards*

Title(s) of Goal Implementor(s): ☑ Special Education Teacher ☑ *Dyslexia Interventionist*

Present Level of Academic Achievement and Functional Performance related to the goal:
Results of the initial or most recent evaluation and results on district-wide assessments relevant to this goal; performance in comparison to general education peers and standards.

According to the FIIE dated 10/10/2026, Edwin's Basic Reading Skills standard score is 63 (well below average). On a classroom phonics assessment, he correctly decoded 7 of 20 unfamiliar single-syllable words (35%). He often guesses words from their beginning letters and needs prompting to use decoding strategies.

TEKS: *ELA.7.3*

Adjust fluency when reading grade-level text based on the reading purpose.

Goal Statement:
Within 36 instructional weeks, when given a list of 20 unfamiliar one- and two-syllable words containing closed, VCe, vowel team, and r-controlled syllables, Edwin will apply decoding strategies to read the words correctly with 80% accuracy (16 of 20) in 4 out of 5 trials, as measured by teacher-made phonics assessments and dyslexia program progress monitoring.

Scoring Method: *Accuracy*

Baseline: *35* % Accuracy **Baseline Collection Date:** *09/15/2026*

Target: *80* % Accuracy **Target Completed By:** *10/14/2027*

Evaluation Procedure: ☑ Observation ☑ Daily Class Work ☑ Formal Tests

Sample Academy

Fictional sample for portfolio use

Goals and Objectives/Benchmarks

Student Name: *Edwin (Fictional)* **Grade:** *7th* **Date:** *10/15/2026* **DOB:** *11/13/2013*

Goal #: *2* **Goal Type:** *Dyslexia – Reading Fluency*

Goal Area: ☑ Academic

Method of Parent Notification: ☑ Progress Report

Schedule for Reporting Progress: *Concurrent with Report Cards*

Title(s) of Goal Implementor(s): ☑ Special Education Teacher ☑ *Dyslexia Interventionist*

Present Level of Academic Achievement and Functional Performance related to the goal:
Results of the initial or most recent evaluation and results on district-wide assessments relevant to this goal; performance in comparison to general education peers and standards.

According to the FIIE dated 10/10/2026, Edwin's Reading Fluency standard score is 60, which is well below average. On a 1st-grade passage he read 24 words correct per minute (WCPM) with 72% accuracy. The district reading diagnostic (9/15/2026) places him at a kindergarten to 1st-grade instructional level. Typical 7th-grade peers read about 150 WCPM on grade-level text. Teachers report that Edwin skips words, guesses from beginning letters, and is reluctant to read aloud.

TEKS: *ELA.7.3*

Adjust fluency when reading grade-level text based on the reading purpose.

Goal Statement:
Within 36 instructional weeks, when given an unfamiliar 2nd-grade-level passage, Edwin will read orally at a rate of 60 words correct per minute with 90% accuracy in 3 out of 4 probes, as measured by curriculum-based fluency probes and dyslexia program progress monitoring.

Scoring Method: *Accuracy*

Baseline: *72* % Accuracy **Baseline Collection Date:** *09/15/2026*

Target: *90* % Accuracy **Target Completed By:** *10/14/2027*

Evaluation Procedure: ☑ Observation ☑ Charting ☑ Formal Tests

Goals and Objectives/Benchmarks

Student Name: *Edwin (Fictional)* **Grade:** *7th* **Date:** *10/15/2026* **DOB:** *11/13/2013*

Goal #: *3* **Goal Type:** *Reading – Reading Comprehension*

Goal Area: ☑ Academic

Method of Parent Notification: ☑ Progress Report

Schedule for Reporting Progress: *Concurrent with Report Cards*

Title(s) of Goal Implementor(s): ☑ Special Education Teacher

Present Level of Academic Achievement and Functional Performance related to the goal:
Results of the initial or most recent evaluation and results on district-wide assessments relevant to this goal; performance in comparison to general education peers and standards.

According to the FIIE dated 10/10/2026, Edwin's Reading Comprehension standard score is 65 (well below average), and his Listening Comprehension standard score is 92 (average). On three ELAR reading comprehension assignments, he averaged 30% accuracy when reading on his own and 80% when the passages and questions were read aloud. He can verbally identify the main idea and supporting details when information is presented orally. Grade-level peers are expected to read and comprehend 7th-grade text independently.

TEKS: *ELA.7.5.F*

Make inferences and use evidence to support understanding.

Goal Statement:
Within 36 instructional weeks, when given a 7th-grade literary or informational text using text-to-speech or read-aloud, Edwin will identify the key idea and make an inference supported by at least one piece of text evidence with 80% accuracy in 4 out of 5 trials, as measured by teacher-made comprehension assessments and work samples.

Scoring Method: *Accuracy*

Baseline: *30* % Accuracy **Baseline Collection Date:** *09/15/2026*

Target: *80* % Accuracy **Target Completed By:** *10/14/2027*

Evaluation Procedure: ☑ Observation ☑ Daily Class Work ☑ Formal Tests

Sample Academy

Fictional sample for portfolio use

Goals and Objectives/Benchmarks

Student Name: *Edwin (Fictional)* **Grade:** *7th* **Date:** *10/15/2026* **DOB:** *11/13/2013*

Goal #: *4* **Goal Type:** *Writing – Written Expression*

Goal Area: ☑ Academic

Method of Parent Notification: ☑ Progress Report

Schedule for Reporting Progress: *Concurrent with Report Cards*

Title(s) of Goal Implementor(s): ☑ Special Education Teacher ☑ Occupational Therapist

Present Level of Academic Achievement and Functional Performance related to the goal:
Results of the initial or most recent evaluation and results on district-wide assessments relevant to this goal; performance in comparison to general education peers and standards.

According to the FIIE dated 10/10/2026, Edwin's Written Expression standard score is 62 (well below average), and his Oral Expression standard score is 96 (average). The district writing diagnostic (9/16/2026) places him at a kindergarten to 1st-grade instructional level. On a teacher-created sentence assessment, he wrote 2 of 10 complete sentences on his own (20%). During a 10-minute writing task he produced 2 incomplete sentences with 9 words total, compared with a class average of 65 words. Only 50% of the words in his handwritten samples were legible. With sentence starters and verbal prompts, he can organize his thoughts and say complete sentences aloud.

TEKS: *ELA.7.10.B.i*

Organize with purposeful structure, including an introduction, transitions, coherence within and across paragraphs, and a conclusion.

Goal Statement:
Within 36 instructional weeks, when given a writing prompt, a graphic organizer, and access to speech-to-text, Edwin will compose a paragraph that includes a topic sentence, at least three supporting details written in complete sentences with correct capitalization and ending punctuation, and a concluding sentence, scoring 3 out of 4 or higher on a teacher-created rubric in 4 out of 5 writing samples.

Scoring Method: *Accuracy*

Baseline: *20* % Accuracy **Baseline Collection Date:** *09/16/2026*

Target: *75* % Accuracy **Target Completed By:** *10/14/2027*

Evaluation Procedure: ☑ Observation ☑ Daily Class Work ☑ Formal Tests

Goal #: *5* **Goal Type:** *Math - Problem Solving*

Goal Area: ☑ Academic

Method of Parent Notification: ☑ Progress Report

Schedule for Reporting Progress: *Concurrent with Report Cards*

Title(s) of Goal Implementor(s): ☑ Special Education Teacher

Present Level of Academic Achievement and Functional Performance related to the goal:
Results of the initial or most recent evaluation and results on district-wide assessments relevant to this goal; performance in comparison to general education peers and standards.

According to the FIIE dated 10/10/2026, Edwin's Math Problem Solving standard score is 67 (well below average), and his Math Calculation standard score is 82 (low average). The district math diagnostic (9/17/2026) places him at a kindergarten to 1st-grade instructional level. He solved 3 of 10 single-step word problems on his own (30%) and 1 of 5 two-step word problems (20%). When the same problems were read aloud with visual models, he solved 7 of 10 (70%). Teachers report that he has trouble identifying the correct operation and keeping information in mind across steps.

TEKS: *M.7.3.A*

Add, subtract, multiply, and divide rational numbers fluently.

Goal Statement:
Within 36 instructional weeks, when given one- and two-step word problems involving rational numbers read aloud, Edwin will use a problem-solving model (identify the question, underline key information, choose the operation, solve, and check) with a visual model and step-by-step checklist to solve the problems with 70% accuracy in 4 out of 5 trials, as measured by teacher-made assessments and work samples.

Scoring Method: *Accuracy*

Baseline: *30* % Accuracy **Baseline Collection Date:** *09/17/2026*

Target: *70* % Accuracy **Target Completed By:** *10/14/2027*

Educational Accommodations and Supports

Student Name: *Edwin (Fictional)* **Grade:** *7th* **Date:** *10/15/2026* **DOB:** *11/13/2013*

Complete for initial ARDS and annual ARDs. (Anyone responsible for implementing the educational accommodations must be notified of her/his specific responsibilities).

Consideration of Special Factors

Check the boxes to indicate if the student requires any supplementary aids and/or services due to the following factors.**For any box checked "yes", specify the special factors in the "Supplementary Aids, Accommodations and Modifications" section and/or the Linguistic and Cultural Accommodations section listed below.**

☑ Yes ☐ No — Assistive Technology devices and/or services are needed for the student to access the curriculum and make reasonable progress in the educational program.

Areas of Consideration for Assistive Technology:

Special Education:

Edwin will use text-to-speech to access instructional-level and grade-level text in Resource ELAR and Resource Math, except during decoding and fluency instruction. He will use speech-to-text and keyboarding to complete written assignments, which supports his written expression goal. He will use a pencil grip, slant board, and raised-line paper during handwriting tasks.

Related Services:

The Occupational Therapist will consult with Edwin's teachers once every 9 weeks. The consults cover how to use his pencil grip, slant board, and raised-line paper, and will check whether these tools are improving his handwriting legibility and speed.

Supplementary Aids and Services:

In all general education classes (Science, Social Studies, and enrichment), Edwin will have access to text-to-speech for reading assignments, directions, and tests. He will use speech-to-text or keyboarding for written assignments. He will have a pencil grip, slant board, and raised-line or wide-ruled paper available. He will also take state assessments with the text-to-speech and speech-to-text designated supports.

At Home or Other Setting:

Edwin may use free text-to-speech and speech-to-text tools on a home device or Chromebook, such as the built-in tools in Google Docs and Chromebook, to complete homework and read assigned texts. The parent was given information on accessing these tools at home.

☐ Yes ☑ No — Communication needs including students who are deaf/hard of hearing. If yes, complete linguistic and cultural accommodations section below.

☐ Yes ☑ No — Emergent Bilingual (EB) - language needs

☐ Yes ☑ No — Blind/visually impaired - provision of Braille instruction

☐ Yes ☑ No — Behavior impedes student's learning or that of others. If yes, the team must consider strategies, including positive behavioral interventions and supports to address behavior. **This may include a Functional Behavioral Assessment and/or a Behavioral Intervention Plan. If so, attach any completed forms.**

Linguistic and Cultural Accommodations

☐ Yes ☑ No — The student requires accommodations for the IEP to meet her/his linguistic and cultural needs. This

Educational Accommodations and Supports

includes second language learners and students who are deaf/hard of hearing. **If yes, specify any needed accommodations:**

☐ Yes ☑ No Special education and related services will be provided in a language or mode of communication other than or in addition to English. This includes services provided to students who are deaf/hard of hearing. **If yes, specify any needed accommodations:**

☐ Yes ☐ No ☑ N/A LPAC recommendation accepted by the committee.

For students who are deaf/hard of hearing and others, as applicable:

- Identify the language and communication need(s):

- List the opportunities for direct communication/interaction with peers and professional personnel in the child's language and communication mode:

- List the identified mode of communication accessible in academic instruction, school services, and extracurricular activities that the student will receive:

Supplementary Aids, Accommodations, and Modifications

☑ Yes ☐ No Specify what aids, accommodations, and modifications are needed for the child to make progress toward annual goals, to progress in the general education curriculum, participate in extracurricular and other non-academic activities, and to be educated and participate with other children with disabilities and/or nondisabled children (e.g., accommodations for daily work, environmental accommodations, moving from class to class, etc.). Supplementary aids, accommodations, and modifications must be based upon peer-review research to the extent practicable.

Supports for School Personnel

☑ Yes ☐ No

Program trainings and/or supports for school personnel are needed for the student to advance appropriately toward attaining the annual goals, participate in the general curriculum, and be educated and participate with other students in educational activities. **If yes, specify what trainings and/or supports are needed, including when appropriate, the information that clarifies when the trainings and/or supports will be provided, by whom, in what location, etc.**

The case manager will review Edwin's IEP, accommodations, and STAAR designated supports with each of his teachers within 5 school days of the ARD and give each teacher an accommodations summary. The Dyslexia Interventionist will consult with the ELAR teacher on

Educational Accommodations and Supports

dyslexia strategies as needed. The Occupational Therapist will consult with the special education and general education teachers once every 9 weeks on handwriting strategies and the use of his pencil grip, slant board, and raised-line paper.

District & State Assessment

Student Name: *Edwin (Fictional)* **Grade:** *7th* **Date:** *10/15/2026* **DOB:** *11/13/2013*

School Year: *26-27*

Classroom-Based Assessments

☑ Yes ☐ No Student will participate in classroom assessments with accommodation(s).

District-Wide Assessments

☑ Previous District-Wide Assessment Results:

Fall 2026 district diagnostics: Reading, Kindergarten–1st grade instructional level (9/15/2026); Writing, Kindergarten–1st grade (9/16/2026); Math, Kindergarten–1st grade (9/17/2026). Edwin did not meet the passing standard on the fall 2026 Reading and Math benchmarks.

☐ District does not administer district-wide assessments.

☐ District does not administer district-wide assessments at this grade level. _____

Student will:

☐ Not participate in the district-wide assessment(s)

☐ Participate in the entire district-wide assessment(s) without accommodation(s).

☑ Participate in the entire district-wide assessment(s) with accommodation(s).

☐ Participate in the district-wide alternate assessment(s) without accommodation(s).

☐ Participate in the district-wide alternate assessment(s) with accommodation(s).

State Academic Assessments

Indicate below which state academic assessment(s) this student will take and, if applicable, if accessibility feature(s) and/or accommodation(s) are needed.

☐ State academic assessments are not administered at this grade level _____

State of Texas Assessment of Academic Readiness (STAAR)

☑ Previous STAAR/STAAR-ALT 2 Results:

Spring 2026 Grade 6 STAAR: Reading Language Arts, Did Not Meet Grade Level. Math, Approaches Grade Level.

☑ Student did not perform satisfactorily on one or more state assessment(s). Document the Accelerated Instruction Program / Intensive Program of Instruction here:

Edwin did not pass the Grade 6 STAAR Reading Language Arts. He will receive accelerated instruction in reading through his Resource ELAR class and dyslexia instruction, plus supplemental targeted tutoring in a group of no more than 4 students. The tutoring totals at least 15 hours during the school year, as required by HB 1416, and is aligned to his IEP goals and 7th-grade RLA TEKS. Edwin met the passing standard (Approaches) in Math, so math accelerated instruction is not required.

☑ Participate in STAAR

- ☑ Reading/Language Arts
- ☑ Math

☐ Participate in STAAR - Alternative (STAAR-ALT2)

Specify:

Dyslexia Screener

☐ Yes ☐ No ☑ N/A Student will participate in the state dyslexia screener process if grade level appropriate.

District & State Assessment

Fitness Gram (Grades 3-12)

- ☐ Will not participate in the physical fitness assessment (Explain): _____
- ☑ Participate in Fitness Gram assessment with no accommodation(s)
- ☐ Participate in Fitness Gram assessment with accommodations(s)

State Assessment of English Language Proficiency

☐ Yes ☑ No Emergent Bilingual (EB)

Assessment Accommodations

If the student will participate in assessments with accommodations, document any needed accommodations for the content area(s) in the section below.

Student Name: *Edwin (Fictional)* **Grade:** *7th* **Date:** *10/15/2026* **DOB:** *11/13/2013*

Educational Environment Considerations and Assurances

To the maximum extent appropriate, children with disabilities, including children in public or private institutions or other care facilities, are educated with children who are non-disabled; AND special classes, separate schooling, or other removal of children with disabilities from the regular educational environment occurs only when the nature or severity of the disability of the child is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily. In providing or arranging for the provision of nonacademic and extracurricular services and activities, the district ensures that each child with a disability participates with non-disabled children in the extracurricular services and activities to the maximum extent appropriate to the needs of the child.

☑ Yes ☐ No Special education classes, separate schooling, or removal from regular education environment is required because the nature or severity of the student's disability is such that education in general classes with the use of supplementary aids and services cannot be achieved satisfactorily

Explain:

Edwin's reading, writing, and math skills are at a kindergarten to 1st-grade instructional level, which is significantly below his 7th-grade peers. He needs direct, explicit, and systematic instruction in a small-group special education setting for dyslexia intervention, ELAR, and math. That instruction cannot be provided satisfactorily in the general education classroom, even with supplementary aids and services. His data shows that his prior inclusion support in ELAR and Math did not close these gaps. Edwin will spend the rest of his school day in general education with accommodations, including in-class support in Science and Social Studies, and in electives and PE with his nondisabled peers.

☑ Yes ☐ No Student will participate in nonacademic activities with nondisabled peers and have the same opportunity to participate in extracurricular activities as nondisabled peers.

If no, explain:

☐ Yes ☐ No ☑ N/A Student will be served in a regular Career and Technical Education (CTE) program with non-disabled peers.

If no, explain:

☑ Yes ☐ No Student will attend the school he or she would attend if nondisabled.

If no, explain criteria and estimated timeline to return to school district:

☑ Yes ☐ No In selecting the least restrictive environment, consideration was given to any potential benefits or harmful effects on the student, the quality of services needed, and the effect this child's presence has on the education others are receiving. The setting chosen is as close as possible to the child's home.

Benefits:

Edwin will receive explicit, systematic, small-group instruction at his instructional level in reading, writing, math, and dyslexia intervention. That instruction can close his skill gaps more effectively than inclusion support alone. The smaller setting gives him more individualized feedback and practice, and lets him read and write without the anxiety he shows when asked to perform in front of peers. Edwin stays with his nondisabled peers for Science, Social Studies, electives, PE, lunch, and extracurricular activities, where he can take part in grade-level content and discussions using his strong listening and verbal skills.

Harmful Effects:

Edwin will spend about 150 minutes a day away from his nondisabled peers and from general education ELAR and Math instruction, so he will have less exposure to grade-level instruction in those subjects. To keep this to a minimum, his resource instruction is aligned to 7th-grade TEKS. He

Committee Members' Signatures

will also receive in-class support and accommodations in his general education classes so he can keep accessing grade-level content.

Committee Members' Signatures

☐ The members of this ARD committee have not reached mutual agreement. The school has offered the parent has agreed to recess of not more than 10 school days. The period of time for reconvening the ARD committee meeting must not exceed ten school days, unless the parties mutually agree otherwise. The ARD committee must schedule the reconvened meeting at a mutually agreed upon time and place. The opportunity to recess and reconvene is not required when the student's presence on the campus presents a danger of physical harm to the student or others or when the student has committed an expellable offense or an offense that may lead to a placement in a disciplinary alternative education program. The requirements of this subsection do not prohibit the ARD committee from recessing an ARD committee meeting for reasons other than the failure to reach mutual agreement about all required elements of an IEP. The ARD committee will reconvene on:

_____ at _____

Date and Time | Place

ARD records shall reflect why mutual agreement has not been reached. Individual statements may be attached.

If a ten-day recess is declined by the parents or adult student, or if after the ten day recess, the ARD committee still cannot reach mutual agreement, the district shall implement the IEP with which it has determined to be appropriate for the student. When a district implements an IEP with which the parent disagrees or adult student disagrees, the district shall provide written notice to the parent or adult student as required in 34 CFR 300.503 (notice of proposal or refusal).

Deliberation Notes

Student Name: *Edwin (Fictional)* **Grade:** *7th* **Date:** *10/15/2026* **DOB:** *11/13/2013*

EVALUATION AND ELIGIBILITY DATA - 10/15/2026
Introductions: Introductions were made by all ARD committee members. Both parents, Mr. and Mrs. Marin, attended in person.

Eligibility: The ARD committee reviewed the Full and Individual Evaluation (FIE) dated 10/10/2026 and agreed that Edwin continues to meet eligibility for special education services as a student with a Specific Learning Disability (SLD) in the areas of basic reading, reading fluency, and reading comprehension (with the condition of dyslexia), written expression (with the condition of dysgraphia), and math problem solving.

Occupational Therapy: The Occupational Therapist reviewed the OT evaluation dated 10/08/2026. Edwin's handwriting is slow and hard to read because of weak fine motor and visual-motor skills. The OT recommended consult services once each grading period and handwriting tools, including a pencil grip, a slant board, and wide-ruled paper.

REED: The ARD committee reviewed Edwin's existing evaluation data and agreed that no additional testing is needed at this time.

PRESENT LEVELS OF ACADEMIC ACHIEVEMENT AND FUNCTIONAL PERFORMANCE - 10/15/2026
Impact and Need: The ARD committee discussed how Edwin's disability affects his access to and progress in the general education curriculum, and his need for specially designed instruction.

Present Levels: The committee reviewed teacher input and Edwin's Fall 2026 district diagnostic results in reading, writing, and math, which show he is currently working at about a kindergarten to 1st-grade level. Edwin understands grade-level material well when it is read aloud, scoring 80% compared to 30% when he reads on his own. He participates more when he can answer out loud.

Dyslexia: The dyslexia specialist reviewed Edwin's present levels, his proposed dyslexia goals, and his dyslexia services using Corrective Reading.

Parent Input: Mr. and Mrs. Marin shared that Edwin struggles to read signs, restaurant menus, and family board games. They said he gets embarrassed and shuts down when asked to read aloud, has cried in class, and avoids writing and drawing. The parents asked how they can help at home, and the case manager shared free read-aloud and talk-to-type tools on his Chromebook.

EDUCATIONAL ACCOMMODATIONS AND SUPPORTS - 10/15/2026
Special Factors: The ARD committee considered the special factors and determined that Edwin needs assistive technology, including text-to-speech, speech-to-text, keyboarding, a pencil grip, a slant board, and wide-ruled paper.

Linguistic and Cultural Accommodations: The ARD committee determined that Edwin does not need linguistic or cultural accommodations. His special education services will be provided in English.

Goals: The proposed annual goals in dyslexia (decoding and fluency), reading comprehension, writing, and math were shared with the committee. The ARD committee agreed to and accepted the goals.

Classroom Accommodations: Edwin's classroom accommodations were shared with the committee. The ARD committee agreed to the accommodations.

Deliberation Notes

Supports for School Personnel: The ARD committee determined that supports for school personnel are needed:

The case manager will review Edwin's IEP and accommodations with his teachers.
The OT will consult with his teachers each grading period on handwriting strategies.

DISTRICT & STATE ASSESSMENT (2026 - 2027) - 10/15/2026
State and District Assessments: The ARD committee agreed that Edwin will participate in all classroom, district, and state assessments with accommodations. The committee reviewed his Spring 2026 6th grade STAAR results: Did Not Meet in Reading and Approaches Grade Level in Math. This year, Edwin will take the 7th grade STAAR Reading and Math tests with accommodations.

Accelerated Instruction: Because Edwin did not meet the required standard on the 2026 STAAR Reading test, he requires accelerated instruction in reading. He will receive targeted reading instruction through his Resource ELAR class and dyslexia instruction, plus small-group tutoring, in accordance with HB 1416 accelerated instruction requirements. His progress will be monitored through ongoing classroom and assessment data, and instruction will be adjusted as needed to address skill gaps.

Dyslexia Screener: Edwin will not take the state dyslexia screener because he is already identified with dyslexia and receives dyslexia services.

Fitness gram: Edwin will participate in the Fitness gram assessment with no accommodations.

The ARD committee agreed to the proposed assessment accommodations.

EDUCATIONAL SERVICES AND PLACEMENT - 10/15/2026 - 10/14/2027
Placement and Services: The ARD committee agreed on a new placement. Inclusion support alone has not closed Edwin's gaps, so he will now receive small-group instruction in the special education setting:

Dyslexia support: 50 minutes, 5 times per week
ELAR: 50 minutes, 5 times per week
Math: 50 minutes, 5 times per week

He will receive 90 minutes per week of inclusion support in Science and 90 minutes per week in Social Studies. He will also receive Occupational Therapy consult services for 30 minutes each grading period. Edwin will stay with his general education peers for Science, Social Studies, electives, PE, and lunch. Edwin does not need a specialized classroom setting.

Extended School Year (ESY): The ARD committee considered ESY and agreed that Edwin does not need ESY services.

Transportation: Edwin does not require special transportation to school.

Dyslexia Supplement: The Dyslexia Supplement was reviewed with the committee. The ARD committee agreed to it.

Educational Environment Considerations and Assurances: The LEA Representative read the educational environment considerations and assurances to the committee. The ARD committee agreed to them.

COMMITTEE MEMBERS' SIGNATURES - 10/15/2026

Deliberation Notes

Signatures: Signatures were collected from all ARD committee members. The parents agreed to waive the 5-school-day waiting period so that services can begin immediately.

Sample Academy

Fictional sample for portfolio use

Prior Written Notice

Student Name: *Edwin (Fictional)* **Grade:** *7th* **Date:** *10/15/2026* **DOB:** *11/13/2013*

The purpose of this letter is to notify you of the district's actions regarding Edwin (Fictional)'s educational program.

This action will be initiated on: **Date:** *10/15/2026* **Day:** *Thursday*

Location: *SAMPLE ACADEMY*

Description of the Proposed or Refused Action:

The ARDC proposed that Edwin continues to qualify for special education services as a student with a Specific Learning Disability in Basic Reading Skills, Reading Fluency, Reading Comprehension, Written Expression, and Math Problem Solving, including dyslexia and dysgraphia. FIE is current (10/10/2026).

The ARDC Reviewed Existing Evaluation Data (REED) and proposed no additional testing is required.

The ARDC proposed new goals in the areas of Dyslexia, Reading, Writing, and Math.

The ARDC proposed instructional accommodations.

The ARDC proposed Edwin take district assessments and STAAR Online for Reading and Math with allowable accommodations.

The ARDC proposed an accelerated instruction plan in the area of Reading because Edwin did not meet passing standards on the 6th grade Reading STAAR.

The ARDC proposed placement in the general education setting with inclusion support for Science and Social Studies.

The ARDC proposed placement in the special education setting for Reading, Writing, and Math.

The ARDC proposed related/other instructional services for Dyslexia and Occupational Therapy.

The ARDC did not propose services for ESY or Transportation.

The Reason We Are Proposing or Refusing to Take Action is:

The ARDC reviewed current evaluation data, including the FIE dated 10/10/2026 and the Occupational Therapy evaluation dated 10/8/2026, classroom performance, progress monitoring, teacher input, and parent information. The ARDC determined that Edwin continues to meet eligibility criteria for special education services under the disability category of Specific Learning Disability and continues to require specially designed instruction to access and make progress in the general education curriculum.

The ARDC reviewed current performance data, progress reports, teacher input, evaluation information, and parent concerns and determined that new or revised goals are needed to address Edwin's identified areas of need.

The ARDC determined accommodations are necessary to provide Edwin with access to instruction, assignments, assessments, and educational activities based on identified disability-related needs and current classroom performance data.

The ARDC reviewed classroom performance, assessment participation requirements, and instructional accommodations routinely used during instruction and determined that STAAR Online with allowable accommodations provides the appropriate assessment access.

Prior Written Notice

The ARDC reviewed STAAR assessment results and determined that accelerated instruction is necessary to address identified skill deficits and provide additional support to improve academic performance and progress toward grade-level standards.

The ARDC determined that, with appropriate special education supports, accommodations, and services, Edwin can be successful in the general education environment for Science and Social Studies and make progress toward IEP goals while participating with nondisabled peers to the maximum extent appropriate.

The ARDC determined Edwin requires a more intensive level of specialized instruction, support, and intervention in Reading, Writing, and Math than can be effectively provided in the general education setting to make progress.

The ARDC reviewed evaluation data, progress information, and identified areas of need and determined that related/additional instructional services are necessary for Edwin to benefit from special education instruction and make progress toward educational goals.

The ARDC reviewed available data and determined that Edwin does not currently demonstrate a need for Extended School Year (ESY) services or special transportation services.

Any Other Factors that are Relevant to the Action:
Edwin's verbal comprehension, listening comprehension, and oral expression are in the average range, allowing him to understand and discuss grade-level content with accommodations. Edwin passed his hearing and vision screenings. The parent shared concerns about Edwin's reading and writing and agreed with the proposed IEP.

Description of any Other Options Considered and Rejected:
The ARDC considered whether additional evaluation was needed to determine continued eligibility.

The ARDC considered continuing current goals without revision.

The ARDC considered maintaining current accommodations without changes.

The ARDC considered the state assessment options and available allowable accommodations for Edwin.

The ARDC considered continuing Edwin's current instructional interventions and supports without an Accelerated Instruction Plan.

The ARDC considered a more restrictive special education setting for Science and Social Studies.

The ARDC considered inclusion support for Reading, Writing, and Math.

The ARDC considered addressing the need through accommodations/classroom strategies only.

The ARDC considered ESY and transportation services.

The Reason(s) We Rejected those Options was:
Based on the current evaluation information and other data reviewed, the ARDC determined that additional evaluation was not necessary at this time.

Current performance and identified needs in the PLAAFP indicate that revised/new goals are necessary.

The proposed accommodations more appropriately address Edwin's current instructional needs.

Sample Academy

Fictional sample for portfolio use

Prior Written Notice

The ARDC determined that the proposed state assessment participation and accommodations align with Edwin's instructional program, disability-related needs, and state assessment requirements.

The ARDC determined that Edwin's STAAR performance and identified academic needs require targeted accelerated instruction in Reading.

Data shows that Edwin can appropriately access and make progress in general education for Science and Social Studies with the proposed supports and services.

Data, student progress, and needs documented in the PLAAFP show Edwin requires a more intensive level of specialized instruction, support, and intervention than can be effectively provided in the general education setting to make progress.

Edwin's identified needs require the proposed related/other instructional services in Dyslexia and Occupational Therapy.

Data reviewed did not demonstrate a need for ESY or transportation services at this time.

A description of each evaluation procedure, test, record, or report we used or plan to use as the basis for taking this action is as follows (If initial evaluation or reevaluation, include the areas being assessed and the purpose):
FIE dated 10/10/2026 (cognitive and achievement testing, reading fluency probe, dyslexia and dysgraphia identification); Occupational Therapy Evaluation dated 10/8/2026; REED conducted 10/15/2026; Fall 2026 district Reading, Writing, and Math diagnostics; Spring 2026 Grade 6 STAAR results; IEP progress reports; teacher input, work samples, and observations; parent input; hearing and vision screenings.

- [x] I agree to waive the required five school day interval in order to immediately initiate changes to my student's identification, evaluation, related services, and/or placement as determined by the ARD Committee Meeting.

Dyslexia Supplement

Student Name: *Edwin (Fictional)* **Grade:** *7th* **Date:** *10/15/2026* **DOB:** *11/13/2013*

Dyslexia Services Start Date: *10/15/2026* Dyslexia Services End Date: *10/14/2027*

☑ Yes ☐ No Does the student receive direct dyslexia instruction?

☑ Yes ☐ No Student has been identified with Dysgraphia.

☐ Yes ☑ No Student has been identified as having another related disorder.

Edwin has been identified with dyslexia and dysgraphia. No other related disorders have been identified.

☑ Yes ☐ No Did the ARD committee include at least one member who has specific knowledge regarding the reading process, dyslexia and related disorders, and dyslexia instruction?

The Dyslexia Interventionist attended the ARD meeting. She has training in the reading process, dyslexia and related disorders, and evidence-based dyslexia instruction. She will provide Edwin's direct dyslexia instruction for 50 minutes daily, 5 times a week, in the special education setting, using an evidence-based program that addresses phonological awareness, phonics/decoding, fluency, and spelling.

☑ Yes ☐ No Did the ARD committee discuss how the student will access the evidence-based dyslexia program, including whether the student's present levels of academic achievement and functional performance (PLAAFP) or other areas of the IEP show evidence that the program must be supplemented with a focus on one or more components?

Edwin will access the evidence-based dyslexia program (Corrective Reading) through direct instruction for 50 minutes daily, 5 times a week, in a small group in the special education setting with a trained Dyslexia Interventionist. His PLAAFP shows that Basic Reading (63), Reading Fluency (60), and spelling (20% on 1st-grade high-frequency words) are his most significant needs. The program will be supplemented with extra practice in phonics/decoding, reading fluency, and spelling/orthography. Because of his dysgraphia, the program will also be supplemented with handwriting and letter-formation practice, supported by OT consultation.

☑ Yes ☐ No Did the ARD committee address how the dyslexia program addresses the required instructional delivery methods described in the handbook, and whether the students' PLAAFP or other areas of the IEP show evidence that the program must be supplemented to meet the student's needs?

Corrective Reading (Decoding strand) addresses several of the instructional delivery methods required in the Dyslexia Handbook. Its lessons are explicit and scripted, use direct teacher modeling and immediate error correction, and follow a systematic and cumulative sequence in which each lesson builds on previously mastered skills. Its placement test and mastery checks support diagnostic teaching to automaticity.

☑ Yes ☐ No Did the ARD committee address the fidelity statements/requirements that are included with the dyslexia program, and how those will be delivered and/or intensified for the student?

The committee reviewed the program's fidelity requirements: lesson sequence, frequency, session length, and group size. Edwin will receive instruction for 50 minutes daily, 5 times a week, in a small group, following the program's lesson sequence. Instruction is intensified through daily sessions, a small group size, and added fluency and spelling practice. The Dyslexia Interventionist will document attendance and lesson progress to make sure the program is delivered with fidelity.

Dyslexia Supplement

☑ Yes ☐ No Did the ARD committee confirm that the provider of dyslexia instruction (PDI) is fully trained in the instructional materials to implement the program and how to differentiate the program?

The committee confirmed that the Dyslexia Interventionist is fully trained in the program's instructional materials and in how to differentiate instruction to meet Edwin's individual needs, including his co-occurring dysgraphia.

☑ Yes ☐ No The IEP progress report meets the intent of the requirement in state law for a progress report on dyslexia instruction? If no, explain:

Notice of Admission, Review, and Dismissal (ARD) Committee Meeting

Student Name: *Edwin (Fictional)* **Grade:** *7th* **Date:** *10/15/2026* **DOB:** *11/13/2013*

Today's Date: *10/01/2026*

The purpose of this letter is to notify you of the district's actions regarding Edwin (Fictional)'s educational program.

Date: *10/15/2026* **Day:** *Thursday* **Time:** *8:30 AM* (Start Time) **to** *9:30 AM* (End time)

Location: *Sample Academy*

Purpose of Meeting and Description of Action:

Annual ARD and Review of Existing Evaluation Data (REED). The committee will review Edwin's Full and Individual Evaluation (FIE) dated 10/10/2026 and his Occupational Therapy evaluation dated 10/8/2026. It will also review existing evaluation data, review his progress on his current IEP, determine continued eligibility and any need for additional evaluation, and develop an IEP, services, and placement for the next year.

Why This Meeting Is Being Proposed:

Edwin's annual IEP is due, and his FIE and Occupational Therapy evaluation have been completed and must be reviewed by the ARD committee. The committee will also review existing evaluation data to determine whether additional evaluation is needed and whether changes to his services and placement are needed.

Options Considered Before Proposing to Have an ARD Committee Meeting:

The district considered amending Edwin's IEP without a meeting.

Why Those Options were Rejected:

The review of a new evaluation, a REED, and a possible change in placement and services require the full ARD committee, including the parent, to meet and make decisions together.

Other Factors Relevant to this Proposal:

None

A description of each evaluation procedure, assessment, record, or report the LEA used as a basis for the proposed or refused action.

Full and Individual Evaluation (FIE) dated 10/10/2026
Occupational Therapy Evaluation dated 10/8/2026
Current IEP and IEP progress reports
Fall 2026 district Reading, Writing, and Math diagnostics
Spring 2026 Grade 6 STAAR results
Teacher input
Parent input

The following persons have been asked to attend the meeting:

- [x] Local Education Agency Representative
- [x] Special Education Teacher
- [x] Educational Diagnostician
- [x] Occupational Therapist
- [x] Parent/Guardian
- [x] General Education Teacher
- [x] Dyslexia Specialist

- [ ] **If any IEP member will not be attending the IEP meeting, complete and attach the form "Team Member Excusal" prior to the meeting.**
